**Subject:** Draft ASPECT report for 20 March 2019  
**Attachments:** ASPECT report ITC Fire 20 March 2019 v2.doc

Team,

Please find the draft ASPECT report for 20 March 2019. Analysis of data indicated that the fire had been extinguished. Analysis of FTIR data showed detections of acetone and SO<sub>2</sub> to west of the farm and isobutylene and isoprene south of the farm. All concentrations were detected below 1 ppm.

Please let me know if you have any questions.

Mark Thomas, PHD
